# Cookies for Kids' Cancer™
# Clinical and Translational Research Awards

**Format of the application**

Applications should contain the following sections:

- **Cover Page**
- **Lay Summary** (one paragraph)
- **Impact Statement** (1/2 page maximum)
- **Budget and budget justification**
- **Biosketch** with other support (NIH format) for key personnel
- **Specific aims:** One (1) page maximum
- **Scientific Project Description** (4 pages maximum total for sections a-d)
    a. Background and significance of research
    b. Preliminary data, include dates
    c. Study design, methodology including data/statistical analyses, and any problem areas anticipated
    d. Timeline for proposed research, including initiation of clinical trials and dates of IRB approval and FDA approval, if applicable.
- **Literature cited** (include complete citations)
- **Appendices** - optional
    a. Maximum of 2 pages
    b. Clinical protocols - entire protocol may be included and does not count towards the page limit.
- **Collaborators or consultants** - letters confirming the role of such individuals in the project or affirming the supply of drugs or other therapeutics for preclinical or clinical studies, must be included with the application.
- **Assurances**: Research using human subjects, animals, radioisotopes or biohazardous materials must have appropriate institutional review and approval.
- **Timeline:** Inclusion of a timeline for the project aims and translation into a clinical investigation is highly recommended.
