

2024 CVRI Symposium Abstract Submission Guidelines

Deadline for Abstract Submission: Friday, March 15th, 6:00pm CDT

Abstracts must be submitted electronically via the [CVRI symposium website](#) by clicking on the '[Abstract Submission](#)' link. Abstracts submitted after the deadline will not be accepted.

By submitting an abstract, you have agreed to present a poster during the poster session on April 10th and compete for an award.

Eligibility: Awards for the highest graded poster presentation are available for the following categories: students, postdoctoral research trainees, clinical residents/fellows, junior faculty (instructor, Assistant Professor), and outstanding clinical research (regardless of the first author's position)..

Guidelines: A maximum of two abstracts may be submitted from a single first author.

Abstract Categories: From the Award Category of the [Abstract Submission](#) form, please select the appropriate eligibility category. Please also select the category (basic or clinical) and the topic (below) of your abstract. This allows us to assign you to the most appropriate group during the poster presenting session on April 5th and match you with fellow researchers and judges, who share similar interest.

Categories:

- Coronary artery disease, atherosclerosis, ischemia
- Heart failure, cardiomyopathy
- Arrhythmias, channelopathies
- Congenital developmental heart disease
- Aortopathy, valvular heart disease
- Cardiac regeneration, stem cells
- Other

Abstract Format:

- The abstract is limited to 2,000 characters (including spaces), excluding titles and authors.
- Tables and graphs are NOT permitted.
- E-mail confirmation will be sent to confirm receipt of the abstract.
